- ***Well Being magazine supplement – “Homœopathy Australia 2011”***

AHA National Council has once again sponsored an 8-page colour supplement as an insert in the Feb 2011 issue of ‘Well Being’ magazine, which is distributed throughout Australia. It explains homœopathy, the credentials of homœopaths in Australia, World Homœopathy Awareness Week (WHAW), provides case studies of homœopathic treatment, and listings of all Professional Members of the AHA in Australia.

Copies of this supplement are available for Professional Members of the AHA to use both as a promotional item during WHAW, and as a resource for their clients.
