**INSIDE OUT**  
VIRTUAL CONFERENCE  
**22 & 23 MAY 2021**

**Prof George  
Vithoulkas**

**FREE WEBINAR**  
(1 CPD POINT)

Thirteen years ago Prof. George Vithoulkas gave a lecture in the Aegean University, Greece during the first year of Master of Science in Classical Homeopathy.

In his opening lecture, he spoke about an idea he has long cherished in his mind that was totally revolutionary, not only for homeopathy but for medicine in general.

He said that there is a "Continuum" in the pathology of patients that may start from the first pathologies, after birth, that eventually form a chain of pathological conditions right through life.

He named his idea "The Continuum of a Unified Theory of Diseases", published in the medical peer reviewed journal "Science Medical Monitor"

<https://www.medscimonit.com/download/index/idArt/878341>

This lecture was inspired by a question asked by a child 'Why do I get ill?' A German publisher had a brilliant idea for a book where children could ask questions and Nobel Laureates give answers ("The Nobel Book of Answers"). The book was a tremendous success published in several languages. The question of the child was very interesting but the answer was not simple. In this webinar Prof. Vithoulkas will try to elucidate the basic concepts of this idea.

**MARCH 9TH 2021**  
**9:30 PM AEDT**  
(EASTERN DAYLIGHT TIME)

ACT, NSW, TAS, VIC: 9.30-10.30PM AEDT

SA: 9-10PM

QLD: 8.30-9.30PM

NT: 8-9PM

WA: 6.30-7.30PM

Join Professor George Vithoulkas as he takes you through this enlightening journey of "*Continuum of a unified theory of diseases*", followed by an exciting Q & A session.

Please submit your questions for Prof Vithoulkas in advance to [info@homeopathyoz.org](mailto:info@homeopathyoz.org)
