

## **Gabrielle Brodie**

Gabrielle was born in Melbourne, Australia, and has been practising homoeopathy for over 20 years. In the last 12 years her pursuits have focused on supporting the Australian Homoeopathic Association (AHA) and she was a National Council (NC) representative for 6 years. Being on AHA NC saw intense work as a team, actively taking the complaint of the NHMRC findings to the Commonwealth Ombudsman and also responding with The Your Health Your Choice campaign, an innovative multifaceted call to action that has been educating and advocating for the public, practitioners and complementary health sector with dexterity and endurance.

In 2021 Gabrielle convened the first Australian Homoeopathic Medicine Conference online under the theme 'Inside Out'. On NC, Gabrielle was leading the research portfolio. This has resulted in strong collaboration with The Aurum Project in the First National Survey of Homoeopaths 2019. She presented these results at the Homoeopathy Research Institute Conference in London in 2019. Research is a priority and Gabrielle continues to meet and collaborate with her peers in organic groups of homoeopaths, educators and academics.

She currently is the president of the local AHA Victoria branch.

For Gabrielle the intention is to support, protect, promote, verify and emancipate the healing art of homoeopathy in Australia – in harmony with other homoeopathic practitioners. Coming and working together in Australia and being part of an international community has been the driving force for much of her activities. It's pivotal to understanding the force that strengthens homoeopathy within and without.

## ***Michelle Hookham***

Michelle is a credentialed mental health nurse and homoeopath, with experience spanning 30 years in healthcare across a diverse range of settings. She has an established private practice in Windsor, NSW, and clinical experience across both professions enhances the practice of the other, with the evolution of a unique skill set that is both flexible and holistic.

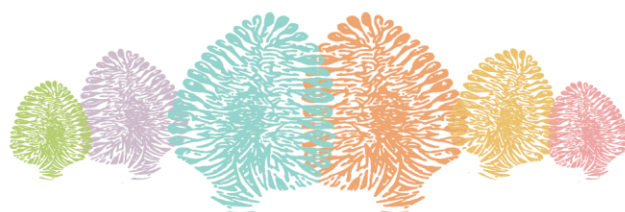

Michelle is a past chairperson to the International Council for Homeopathy (ICH) and past national president of the Australian Homoeopathic Association (AHA).

She is currently undertaking a PhD in psychosocial wellbeing and disaster recovery.

Master of Mental Health Nursing AHPRA Regd., mACMHN

Licentiate of Homeopathy, UK

ARoH Regd., MAHA

## ***Sandra Venables***

***MPH (Active Living & Global Nutrition), Grad Cert Ed (Higher Ed), BSc (Hom)***

Sandra is the Secretary and Executive Assistant of the Australian Register of Homoeopaths (ARoH). She completed her master's minor thesis, 'Explore expectation of, and current utilisation of, traditional and complementary medicine treatments in communities from refugee backgrounds in Brisbane and Logan, Southeast Queensland' in 2020. She is also a member of the research group exploring and supporting homoeopathy in the Solomon Islands.

Sandra is currently registered with ARoH, a professional member of the AHA and is in private practice in Tamborine Mountain, Queensland.
