

Patricia Hatherly

Patricia Hatherly BA DipEd; BHSc (Hom) has been in private practice as a homœopath since 1995 and is well-known both in Australia and overseas as a clinician, educator and author.

She has conducted several provings and is the author of *The Homœopathic Physician's Guide to Lactation* (2004) and *The Lacs: a materia medica & repertory* (2010).

Patricia has spent nearly 50 years of her life working with mothers and babies, 20 of them as an internationally-accredited lactation consultant; and it's this, plus the years spent as a childbirth educator and doula, which particularly inform her fascination with the primal period and milk in particular.

More about her and her work (provings, conference papers, webinars, journal articles and newsletter *Milk Matters*) are archived on her website:
